Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 2, line 2, "means" was deleted.

In claim 3, line 2, "means" was deleted.

In claim 8, line 2, "means" was deleted.

In claim 9, line 2, "means" was deleted.

In claim 14, line 2, "means" was deleted.

In claim 15, line 2, "means" was deleted.

The claims were amended because the term "second brake means" lacks a proper antecedent. Only a "second brake" is recited in the independent claims.

Claims Allowed

Claims 1-18 are allowable over the prior art of record. The claims are allowed because the prior art does not anticipate nor render obvious the invention of a planetary gearing wherein the gearing includes three gear sets as recited, including a ring gear or a carrier of the first gear unit being secured against rotation, a first and a second clutch are provided, and a first, second and third clutch are also provided, such that the third clutch connects a sun gear of the second gear set with either the ring gear or the carrier of the first gear set, whichever is not secured against rotation.

Prior Art Discussed

The examiner has considered the references cited in applicant's Information Disclosure Statement filed September 12, 2003. The most relevant reference is Justice '792, which shows a transmission with three planetary gear sets, wherein the input is connected to a first sun gear, an output is connected to a third carrier, a first clutch and a second clutch as recited, but no third clutch is shown.

The references cited by the examiner are deemed pertinent to applicant's disclosure. None of the cited references show a third clutch as claimed.
